

Hydraulic Quick Coupler

Innovation & Quality

**TWIN LOCK
SERIES**

Komatsu brings you wide range of Hydraulic Quick Coupler to minimize challenges faced at site.

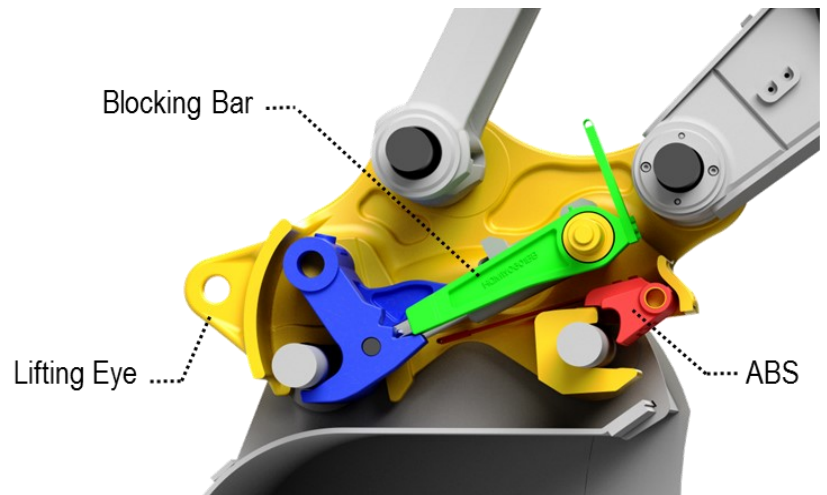

Twin Lock series Hydraulic Quick Coupler is completely automatic, hence easy to operate & leads to safer operation.

The simple design of Twin Lock series Hydraulic Quick Coupler enables you to change attachments quickly and safely, hence maximize productivity without any compromise.

Product range

Machine Model	PC71	PC130	PC200/210	PC300/350	PC450
Coupler Weight (kg)	93	180	310	560	850
Max. Working Pressure (bar)	400	400	400	400	400

FEATURES

- Fully Automatic (Hydraulic coupling)
- Twin Lock Mechanism
- Automatic Blocking System (ABS)
- Blocking Bar
- Lifting Eye
- Casting Manufacturing

BENEFITS

- Quick Changeover
- Safe operation
- Prevents attachment from falling off in case of hydraulic system failure
- Additional safety feature
- Specially designed for Lifting job
- High Durability
